BILL ANOATUBBY
GOVERNOR

July 27, 2011

Chairman Julius Genachowski
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Chairman Genachowski:

The Chickasaw Nation respectfully requests your consideration of the merger between AT&T Inc. and Deutsche Telekom AG applications for consent to assign or transfer control of licenses and authorizations; (WT Proceeding - No. 11-65).

We fully support the merger between AT&T and T-Mobile due to the fact that it will produce a high-speed mobile broadband network that reaches over 97 percent of people in the United States and can greatly benefit the Chickasaw Nation.

The expansion of high-speed mobile broadband can significantly benefit the Chickasaw people. It can greatly improve the delivery of telehealth services, which is crucial to our tribe because we have five geographically dispersed clinics across south central Oklahoma, as well as a new hospital in Ada.

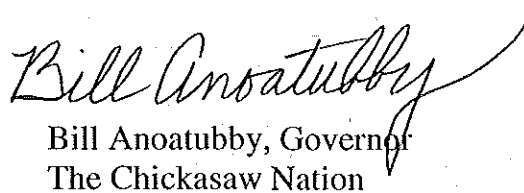

There are also 11 senior centers within our boundaries, offering health-related programs to our elders. Tribal members in rural areas could have easier access to all of our programs should they gain access to the 4G LTE mobile broadband technology this merger will deliver.

July 27, 2011

Expansion of 4G LTE availability will also make it easier for the Chickasaw Nation to deliver educational programs to tribal members through bandwidth intensive applications and downloadable programs.

Thank you for your consideration on this matter.

Sincerely,

Bill Anoatubby, Governor
The Chickasaw Nation
